

STRATA_HEAT™

The STRATA_HEAT™ floor heating system is the most advanced radiant floor heating system available in the world. Consisting of a high performance floor heating wire, an uncoupling mat, a Wi-Fi enabled thermostat and the world's first heat conductive thin-set additive – the system provides you with the most advanced and efficient floor heating system for your next installation.

- Uniformity and energy efficiency all in one floor heating system
- Highest quality floor heating installation available

LATICRETE helps you design the space for your heated floors using our free, simple to use [floor warming layout tool](#) which makes adding radiant floor heating easy.

STRATA_HEAT is part of the LATICRETE Lifetime System Warranty – providing you one source, one warranty from the substrate to the grout – no other company can match the innovative features or offer such a comprehensive line of products.

The STRATA_HEAT™ Thermostat comes equipped with a user-friendly set-up and:

- Simple smartphone app
- Smartphone GPS location services to learn heating routines
- Home automation digital assistant
